Axis

Axis

The Axis chair and lounge set beautifully combines style, comfort, and elegance, thanks to its graceful curves and top-quality materials. This collection elevates any interior, blending seamlessly with both modern and traditional decors.

One of the standout features of Axis is its variety of base options, allowing you to customize its look to fit your specific style and space needs. Whether you prefer a sleek metal base, a warm wooden one or a swivel option, Axis adapts effortlessly to your interior design.

Additionally, the optional headrest on the single-seater introduces an extra layer of style and comfort, perfect for enhancing the chair's appeal while providing support during relaxation.

Customisation extends to the frame, which can be powder-coated or stained to any colour you choose, and the upholstery, available in fabrics, vinyl, or leather. Even more, coloured accent stitching can be added for a unique touch.

The aesthetic versatility of the Axis collection is truly surprising, offering countless possibilities to create a space that's not only stylish and inviting but also uniquely yours.
